

Highly fluorescent lymphocytes per μ l

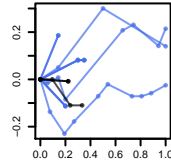

Basal TSH, mU/l

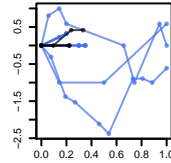

Triglycerides, mg/dl

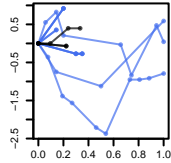

Reticulocyte hemoglobin equivalent, pg

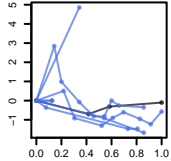

Reticulocyte production index (RPI)

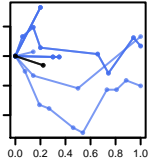

Reticulocytes per nl

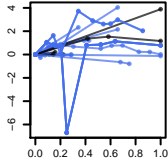

Myoglobin, ug/l

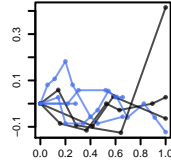

Reticulocytes, % of erythrocytes

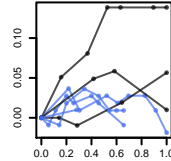

Bilirubin (direct), mg/dl

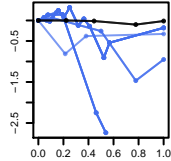

Neutrophil activity

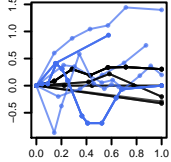

Neutrophil granularity intensity

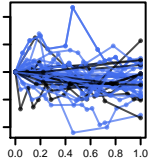

Segment core granulocytes, % of leukocytes

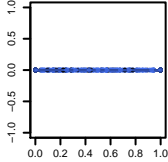

Pseudocholinesterase, kU/l

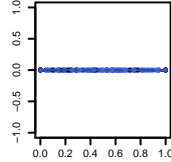

Neutrophil-to-lymphocyte ratio

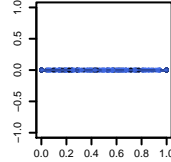

Age

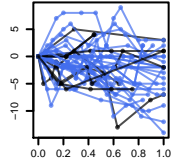

BMI

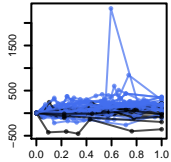

Charlson score

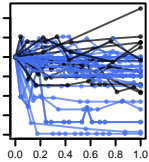

SOFA score

Horowitz index, mmHg

FiO2

P.Severity
