**Subjective Chemosensory Dysfunction Questionnaire (SCD-Q, T3)**

D1	<p>Hello,</p> <p>Thank you for agreeing to continue this study with us.</p> <p>We offer you a 35 minutes ONLINE QUESTIONNAIRE including a behavioral olfactory test. This AT-HOME SCENT TEST involves smelling and tasting a variety of <u>common substances found in your kitchen</u> to establish your odor detection threshold.</p>
D2	<p><b>Please prepare peanut butter, jam or jelly, vinegar, coffee, salt and sugar if you have any.</b></p> <p><b>You will need these ingredients for the last section of the survey.</b></p>
Q1	<p><b>Please select the category that best describes you?</b></p> <p>Caucasian (White)  Indigenous (First Nations, Inuit, Metis)  Asian  Black  Latin-American  Arab  Other [text box]  Prefer not to answer</p>
Q2	<p>Have you been <u>reinfecte</u>d with COVID-19?</p> <p>-Yes</p> <p>-No</p>
Q3	<p>Were you diagnosed with any <u>other respiratory illnesses (not COVID-19)</u> in the <u>last two weeks</u>? (Select all that apply)</p> <ul style="list-style-type: none"> <li>- Strep throat (Streptococcal bacteria)</li> <li>- Another bacterial illness</li> <li>- Flu (influenza)</li> <li>- Another viral illness</li> <li>- Other</li> <li>- <b>None [Exclusive]</b></li> </ul>
Q4	<p>Have you had any of the following symptoms with your <b>recent respiratory illness or diagnosis (NOT COVID)</b> (Select all that</p>

	<p>apply)</p> <ul style="list-style-type: none"> <li>- Fever</li> <li>- Dry cough</li> <li>- Cough with mucus</li> <li>- Difficulty breathing / shortness of breath</li> <li>- Chest tightness</li> <li>- Runny nose</li> <li>- Sore throat</li> <li>- Changes in food flavor</li> <li>- Changes in smell</li> <li>- Loss of appetite</li> <li>- Headache</li> <li>- Muscle aches</li> <li>- Fatigue</li> <li>- Diarrhea</li> <li>- Abdominal pain</li> <li>- Nausea</li> <li>- No symptoms <b>[Exclusive]</b></li> </ul>
Q5	<p>What treatment(s) or medication(s) have you received for your recent respiratory illness or diagnosis (NOT COVID)?</p> <ul style="list-style-type: none"> <li>- <b>[text box]</b></li> <li>- None</li> </ul>
D3	<b>The next question relates to your pre-existing medical conditions.</b>
Q6	<p>Have you been treated or diagnosed for any of the following? (Select all that apply)</p> <ul style="list-style-type: none"> <li>- High blood pressure</li> <li>- Heart disease (heart attack or stroke)</li> <li>- Diabetes (high blood sugar)</li> <li>- Obesity</li> <li>- Lung disease (asthma/chronic bronchitis)</li> <li>- Head trauma</li> <li>- Neurological disease</li> <li>- Cancer that required chemotherapy or radiation</li> <li>- Cancer that did NOT require chemotherapy or radiation</li> <li>- Chronic sinus disease</li> <li>- Seasonal allergies / hay fever</li> <li>- Other [text box]</li> <li>- None <b>[Exclusive]</b></li> <li>- Prefer not to answer</li> </ul>
D5	<b>The following questions relate to your <u>sense of smell</u> (for example, sniffing flowers or soap, or smelling garbage) but <u>not the flavor of food</u> in your mouth.</b>
Q7	Rate your ability to <u>smell</u> BEFORE the COVID-19 pandemic.

	0: No sense of smell ... 10: Excellent sense of smell
Q8	Rate your ability to <u>smell</u> DURING your most recent <b>COVID-19 infection or diagnosis</b> .  0: No sense of smell ... 10: Excellent sense of smell
Q9	Rate your ability to <u>smell</u> TODAY.  0: No sense of smell ... 10: Excellent sense of smell
Q10	Rate your ability to <u>smell</u> TODAY.  0: No sense of smell ... 10: Excellent sense of smell
Q11	Rate your ability to <u>smell</u> when you answered our first questionnaire.  0: No sense of smell ... 10: Excellent sense of smell Don't remember
Q12	Rate your ability to <u>smell</u> COMPARED to the time before the COVID-19 pandemic.  Much worse A bit worse The same ( <b>skip to D7</b> ) A bit better Much better
Q13	Do you currently experience any changes in your sense of smell? (Select all that apply) - I cannot smell at all / Smells smell less strong than they did before - Smells smell different than they did before (the quality of smell has changed) - I can smell things that aren't there (for example I smell burning when nothing is on fire) - Sense of smell fluctuates (comes and goes) - Other or details to answers selected above [ <b>text box</b> ] - No changes noticed ( <b>Exclusive</b> )
D4	<b>The next questions should be answered spontaneously.</b> <b>We will ask you to select one of these 4 answers regarding various statements:</b>

	<p>Completely agree</p> <p>Partially agree</p> <p>Partially disagree</p> <p>Completely Disagree</p>
Q14	<p>The changes in my sense of smell make me feel isolated.</p> <p>Completely agree</p> <p>Partially agree</p> <p>Partially disagree</p> <p>Completely disagree</p>
Q15	<p>Because of the changes in my sense of smell, I have problems with taking part in activities of daily life.</p> <p>Completely agree</p> <p>Partially agree</p> <p>Partially disagree</p> <p>Completely Disagree</p>
Q16	<p>The changes in my sense of smell make me feel angry.</p> <p>Completely agree</p> <p>Partially agree</p> <p>Partially disagree</p> <p>Completely disagree</p>
Q17	<p>Because of the changes in my sense of smell, I don't enjoy drinks or food as much as I used to.</p> <p>Completely agree</p> <p>Partially agree</p> <p>Partially disagree</p> <p>Completely disagree</p>
Q18	<p>Because of the changes in my sense of smell, I eat less than I used to or more than I used to.</p> <p>Completely agree</p> <p>Partially agree</p> <p>Partially disagree</p> <p>Completely disagree</p>
Q19	<p>Because of the changes in my sense of smell, I try harder to relax.</p> <p>Completely agree</p> <p>Partially agree</p> <p>Partially disagree</p> <p>Completely disagree</p>
Q20	<p>I am worried that I will never get used to the changes in my sense</p>

	<p>of smell.</p> <p>Completely agree Partially agree Partially disagree Completely disagree</p>
<b>D5</b>	<b>The following questions relate to the obstruction or congestion of your nose (stuffy nose).</b>
Q21	<p>How <b><u>blocked</u></b> was your nose BEFORE the COVID-19 pandemic?</p> <p>0: Not at all blocked ... 10: Completely blocked</p>
Q22	<p>How <b><u>blocked</u></b> was your nose DURING your most recent <b>COVID-19 infection or diagnosis</b>?</p> <p>0: Not at all blocked ... 10: Completely blocked</p>
Q23	<p>How <b><u>congested or clogged</u></b> is your nose TODAY?</p> <p>0: Not blocked at all ... 10: completely blocked</p>
Q24	<p>How <b><u>congested or clogged</u></b> was your nose when you answered our first survey?</p> <p>0: Not blocked at all ... 10: completely blocked Don't remember</p>
Q25	<p>Rate how <b><u>congested or clogged</u></b> your nose is COMPARED to the time before your infection.</p> <p>Much more blocked A bit more blocked The same A bit less blocked Much less blocked</p>
<b>D6</b>	<b>The following questions are related to your sense of taste. For example, sweetness, sourness, saltiness, bitterness experienced in the mouth.</b>
Q26	<p>Rate your ability to <b><u>taste</u></b> BEFORE the COVID-19 pandemic.</p> <p>0: No sense of taste ... 10: Excellent sense of taste</p>
Q27	<p>Rate your ability to <b><u>taste</u></b> DURING your most recent <b>COVID-19 infection or diagnosis</b>.</p>

	0: No sense of taste ... 10: Excellent sense of taste
Q28	Rate your ability to <b><u>taste</u></b> TODAY.  0: No sense of taste 10: excellent sense of taste
Q29	Rate your ability to <b><u>taste</u></b> when you answered our first questionnaire.  0: No sense of taste ... 10: Excellent sense of taste Don't remember
Q30	Rate your ability to <b><u>taste</u></b> COMPARED to the time before your infection.  Much worse A bit worse The same A bit better Much better
Q31	Do you currently experience changes with your sense of taste? (Select all that apply) - Sweet (Sugar, caramel, candy, etc.) - Salty (Salt, sea water, smoked or cured meat, etc.) - Sour (Yellow lemon, plain yogurt, etc.) - Bitter (white skin on grapefruit, raw endives, coffee, etc.) - Savory/Umami (ripe tomatoes, soy sauce, parmesan, or cheddar cheese, etc.) - Other or details to answers selected above <b>[text box]</b> - No change noticed <b>[Exclusive]</b>
D7	<b>The following questions are related to other sensations in your mouth, like burning, cooling, or tingling. For example, chili peppers, mint gum or candy, or carbonation.</b>
Q32	Rate your <b><u>ability to feel these other sensations</u></b> (burning, cooling, or tingling) BEFORE the COVID-19 pandemic.  0: Not sensitive at all... 10: Very sensitive
Q33	Rate your <b><u>ability to feel these other sensations</u></b> (burning, cooling, or tingling) DURING your most recent COVID-19 infection or diagnosis.  0: Not sensitive at all... 10: Very sensitive

Q34	<p>Rate your <u>ability to feel other sensations like burning, cooling, and tingling</u> AFTER acute symptoms.</p> <p>0: No perception at all... 10: very sensitive</p>
Q35	<p>Rate your <u>ability to feel other sensations like burning, cooling, and tingling</u> TODAY.</p> <p>0: No perception at all... 10: very sensitive</p>
Q36	<p>Rate your ability to <u>ability to feel other sensations like burning, cooling, and tingling</u> when you answered our first questionnaire.</p> <p>0: No perception at all... 10: very sensitive</p>
Q37	<p>Rate your <u>ability to feel other sensations like burning, cooling, and tingling</u> COMPARED to the time before your infection.</p> <p>Much worse A bit worse The same A bit better Much better</p>
Q38	<p>Think about a food or beverage you consume regularly - for example, your morning coffee or tea or a piece of fruit you have each day.</p> <p>Has the taste, smell, or flavor changed and not recuperated since your <b>COVID-19 infection</b> or diagnosis? If so, <b>please describe how and be sure to indicate which food or beverage you are describing.</b></p> <p>[text box] No change</p>
D8	<p><b>For the next section, please provide yourself these items from your kitchen:</b></p> <ul style="list-style-type: none"> <li>• Peanut butter</li> <li>• Fruit jam or jelly (Room temperature)</li> <li>• Vinegar</li> <li>• Coffee (beans, ground, instant, other)</li> <li>• Salt</li> <li>• Sugar</li> </ul> <p><b>2 glasses of lukewarm water</b></p>
Q39	<p>Do you have peanut butter?</p> <p>Yes No/I'm allergic (<b>Skip to Q43</b>)</p>

Q40	<p>Please <b>sniff</b> the peanut butter</p> <p>How strong does the peanut butter smell?</p> <p>0: Not at all 10: Very strong</p>
Q41	<p>Is the peanut butter smell the same as usual?</p> <p>Yes No, weaker No, different</p>
Q42	<p>Without knowing the substance you are going to smell, do you believe you would have recognized the smell of peanut butter?</p> <p>Yes No</p>
Q43	<p>Do you have fruit jam or jelly?</p> <p>Yes No <b>(Skip to Q47)</b></p>
Q44	<p>Please <b>sniff</b> the fruit jam or jelly.</p> <p>How strong does the fruit jam or jelly smell?</p> <p>0: Not at all 10: Very strong</p>
Q45	<p>Is the fruit jam or jelly smell the same as usual?</p> <p>Yes No, weaker No, different</p>
Q46	<p>Without knowing the substance you are going to smell, do you believe you would have recognized the smell of fruit jam or jelly?</p> <p>Yes No</p>
Q47	<p>Do you have vinegar?</p> <p>Yes No <b>(Skip to Q51)</b></p>
Q48	<p>Please <b>sniff</b> the <b>vinegar</b></p> <p>How strong does the vinegar smell?</p> <p>0: Not at all 10: Very strong</p>
Q49	<p>Is the vinegar smell the same as usual?</p>

	Yes No, weaker No, different
Q50	Without knowing the substance you are going to smell, do you believe you would have recognized the smell of vinegar?  Yes No
Q51	Do you have coffee (beans, ground, instant, other)?  Yes No ( <b><u>skip to D9</u></b> )
Q52	Please <b>sniff</b> the <b>coffee</b> (beans, ground, instant, other)  How strong does the coffee powder smell?  0: Not at all 10: Very strong
Q53	Is the coffee smell the same as usual?  Yes No, weaker No, different
Q54	Without knowing the substance you are going to smell, do you believe you would have recognized the smell of coffee?  Yes No
D9	<b>Let's proceed to the tasting section of the test.</b>  <b>(Exclude Q55-57 if no PB and exclude Q58-60 if no jam/jelly)</b>
Q55	Please put a small amount of <b>peanut butter</b> in your mouth. How strong does the peanut butter <b>taste</b> ?  0: Not at all 10: Very strong
Q56	Does the peanut butter taste the same as usual?  Yes No, weaker No, different
Q57	Without knowing the substance you are going to taste, do you believe you would have recognized the taste of peanut butter?  Yes

	No
Q58	<p>Please put a small amount of <b>fruit jam or jelly</b> in your mouth. How strong does the fruit jam or jelly <b>taste</b>?</p> <p>0: Not at all 10: Very strong</p>
Q59	<p>Does the fruit jam or jelly taste the same as usual?</p> <p>Yes No, weaker No, different</p>
Q60	<p>Without knowing the substance you are going to taste, do you believe you would have recognized the taste of fruit jam or jelly?</p> <p>Yes No</p>
Q61	<p>Do you have salt?</p> <p>Yes No <b>(Skip to Q65)</b></p>
Q62	<p>Please put a teaspoon of <b>salt</b> into a glass filled with 1 cup of lukewarm water. Stir. Then please take a spoonful of water into your mouth. How strong does the salty water <b>taste</b>?</p> <p>0: Not at all 10: Very strong</p>
Q63	<p>Is the salty taste the same as usual?</p> <p>Yes No, weaker No, different</p>
Q64	<p>Without knowing the substance you are going to taste, do you believe you would have recognized the salty taste?</p> <p>Yes No</p>
Q65	<p>Do you have sugar?</p> <p>Yes No <b>(Skip to Q69)</b></p>
Q66	<p>Please put 3 teaspoons of <b>sugar</b> into the other glass with 1 cup of lukewarm water. Stir. Then please take a spoonful of water into your mouth. How strong does the sweet water <b>taste</b>?</p>

	0: Not at all 10: Very strong
Q67	Is the sweet taste the same as usual?  Yes No, weaker No, different
Q68	Without knowing the substance you are going to taste, do you believe you would have recognized the sweet taste?  Yes No
Q69	Would you like to mention anything else regarding your medical condition, the evolution of your chemical senses (smell, taste, other sensations) or any other relevant information?  Yes [text box] No
D10	Thank you for answering this second-and last online questionnaire! Your contribution to our understanding of this new virus is greatly appreciated.  Cordially,  Dr Nicolas Dupré Dr Johannes Frasnelli
