Ref: reference allele, Alt: alternate allele, NA: not available. Data are from the integrated genome variation database TogoVar¹. Allele frequency data of Japanese population from the public databases (GEM-J², JGA-SNP³, ToMMo⁴, and HGVD⁵) are shown. The data for east Asian and total populations (African-American/African, Ashkenazi Jewish, East Asian, Finnish, Latino, Non-Finnish European, and Other) are obtained from gnomAD⁶.
