

Supplementary Figure 1: Functional annotation of SNPs (A) shared between AN and BMI and; (B) shared between AN and age at menarche

Supplementary Figure 2: Expression of mapped genes shared between AN and BMI based on 54 tissue types

Supplementary Figure 3: Expression of mapped genes shared between AN and age at menarche based on 54 tissue types

Supplementary Figure 4: GO biological processes identified with FUMA for the genes shared between AN and BMI

Supplementary Figure 5: GO biological processes identified with FUMA for the genes shared between AN and age at menarche

Supplementary Figure 6: GWAS phenotypes identified with FUMA for the genes shared between AN and BMI

Supplementary Figure 7: GWAS phenotypes identified with FUMA for the genes shared between AN and age at menarche
