16 \*Socioeconomic status was derived from a combination of mother's education level,  
 17 health insurance status, and household income weighted by region, see **Text A in S1**  
 18 **File** for more information.

19 **Table F.** Odds ratios and confidence intervals from the geography-specific analysis  
 20 between respiratory illnesses in the first two years of life and physician-diagnosed  
 21 asthma after the age of two in the two Puerto Rican populations: Islanders and  
 22 Mainlanders.

|                   | <b>Islander<br/>(n=962)</b> | <b>Mainlander<br/>(n=102)</b> |
|-------------------|-----------------------------|-------------------------------|
| URI               | <b>7.8 (4.69-13.3)</b>      | 0.817 (0.25-2.57)             |
| Pneumonia         | <b>8.92 (3.04-32.4)</b>     | 1.06 (0.0379-29.8)            |
| Bronchitis        | <b>14.8 (7.23-33.4)</b>     | 0.63 (0.0215-18.6)            |
| Bronchiolitis/RSV | <b>7.6 (3.9-15.6)</b>       | 3.86 (0.386-91.3)             |
| Any Listed        | <b>8.64 (5.72-13.2)</b>     | 0.684 (0.222-2.01)            |
