

Supplementary Material 1. Questionnaire “Diet and physical activity during the lockdown period”, NutriNet-Santé cohort, France, April 2020

The French version of the questionnaire, as sent to the participants can be found at the following link: https://info.etude-nutrinet-sante.fr/protectednew/Quest_COVID19_AAP.pdf

Part 1: Weight

What is your current weight? (kg)

Was this value measured specifically for the questionnaire?

- Yes
- No

Part 2: Diet

Have you modified your eating practices since the beginning of the lockdown period (quality, quantity, type of products, mealtime schedule, etc.)?

- No
- Yes, a little
- Yes, moderately
- Yes, a lot
- I don't know

If yes, for what reason(s)? (tick all the answers that apply to you)

- I cannot easily go to my usual food stores anymore
- I cannot find the products I usually buy in my regular food stores
- I buy less fresh produce because I go out less often
- I lost my taste and/or sense of smell
- I deliberately reduce my consumption of certain foods or drinks to avoid weight gain
- I deliberately reduce my consumption of certain foods or drinks because I am afraid of shortage / I want to keep my food stock as long as possible
- I usually eat organic food but I currently eat less of them because the supply has become difficult
- The current situation has an impact on my income, I save money on food
- I think that this lockdown period is a good opportunity to balance my diet
- I read advice on the Internet or on social media to avoid or go for some foods to fight the virus
- I am sick (presumed or confirmed Coronavirus infection)
- I am sick (not related to the Coronavirus)
- My life routine has changed (for example: family meals, no more meal at work) and this has an impact on my eating practices
- I spend more time cooking "homemade" meals
- I have less time for cooking
- I have trouble keeping a regular mealtime schedule
- I eat more because I am more bored than usual
- I eat more because I am more anxious
- I eat more because I am more tired
- I have no appetite (anxiety/stress)
- I no longer eat at the restaurant
- I have more meals delivered at home
- I have less meals delivered at home
- I eat less because I move less, I exercise less

Compared to before the lockdown period, would you say that:

- Your diet quality is better
- Your diet quality is neither better nor worse
- Your diet quality is worse

- You don't know

How often do you snack during the day (until bedtime)?

- 6 times or more a day, every day
- 3 to 5 times a day, every day
- Once or twice a day, every day
- 4 to 6 times a week
- 1 to 3 times a week
- Less than once a week
- Never

Compared to before the lockdown period:

- I snack more
- I snack less
- I snack neither more or less

Part 3: Diet (continued)

For each food group, tick the answer that best applies to you.

Bread, whole-grain:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Bread, white:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Pasta/Rice:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Pasta/Rice, whole-grain:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Crispbread:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Breakfast cereals:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Fruit, fresh:

- My consumption has increased

- My consumption has decreased
- My consumption has not changed
- I never consume this product

Fruit, canned:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Fruit, frozen:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Nuts:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Vegetables, fresh:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Vegetables, canned:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Vegetables, frozen:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Soup, fresh:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Soup, carton:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Soup, dehydrated:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Potatoes:

- My consumption has increased

- My consumption has decreased
- My consumption has not changed
- I never consume this product

Mashed potatoes or vegetables, dehydrated:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Legumes:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Fish or shellfish, fresh:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Fish or shellfish, canned:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Fish or shellfish, frozen:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Red meat, fresh:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Red meat, frozen:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Processed meat:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Poultry, fresh:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Poultry, frozen:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Plant-based steaks, Soja-based steaks:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Ready-made dishes, fresh:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Ready-made dishes, canned:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Ready-made dishes, frozen:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Sandwiches, pizzas, savoury pies:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Milk:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Cheese:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Yogurt, cottage cheese:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Dairy desserts:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Sweets, chocolate:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Biscuits, cakes:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Sugar, honey, marmalade:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Butter:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Vegetable oil:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Fruit juice:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Sugary drinks, sodas:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Water, tap:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Water, bottle:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Alcoholic drinks:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Tea, herbal tea:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Coffee:

- My consumption has increased
- My consumption has decreased
- My consumption has not changed
- I never consume this product

Part 4: Diet (end)

Are you stressed from the idea of lacking some food during the lockdown?

- Yes, a lot
- Yes, moderately
- Yes, a little
- No

What are the sources of food supply for your household?

Local (outdoor) market:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Bakery:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Local grocery store:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Other local shops (butcher's, fishmonger's, greengrocer's...)

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Supermarket:

Usually?

- Yes

- No

During the lockdown?

- Yes
- No

Hypermarket:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Frozen food store:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Organic food store:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Mobile shop:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Internet, telephone or mail-order purchase (followed by delivery or drive-pick-up):

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Food baskets from farmers or AMAP (associations supporting small farming), organic or not:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Food-distribution centres (meals, packages, subsidized grocery stores...):

Usually?

- Yes

- No

During the lockdown?

- Yes
- No

Food or meal delivery at home:

Usually?

- Yes
- No

During the lockdown?

- Yes
- No

Are you storing more food than usual to cope with the lockdown?

- Yes, because I have reduced the frequency of grocery shopping
- Yes, because I am afraid of shortage
- No

Part 5: Physical activity

Have you modified your physical activity level since the beginning of the lockdown period?

- My physical activity has increased
- My physical activity has decreased
- My physical activity has not changed
- I don't know

How much time do you currently spend seated or lying down during the day (i.e., during work or telework, meals, leisure, transport, BUT outside sleeping)? (hours and minutes)

Have you modified this duration of sedentary time since the beginning of the lockdown period?

- My sedentary time has increased
- My sedentary time has decreased
- My sedentary time has not changed
- I don't know
