

GO:0071352

(cellular response to interleukin-2)

GO:0090177

(establishment of planar polarity involved in neural tube closure)

GO:1900165

(negative regulation of interleukin-6 secretion)

GO:1901215

(negative regulation of neuron death)

GO:0090178

(regulation of establishment of planar polarity involved in n...)

GO:0001012

(RNA polymerase II regulatory region DNA binding)

GO:0017166

(vinculin binding)

**Supplementary Figure 4. Funnel plots of the significant GO terms from our functional gene meta-analysis.** In the absence of bias and heterogeneity, we would expect the points to be distributed in the form of a funnel, within the region of confidence.
