Represented adjusted p-values by False Discovery Rate correction. Highlighted in green, significant p-values. DA: dopaminergic gene set; SERT: serotonergic gene set. * genes present in the DA or SERT core gene set. ANO: Anorexia Nervosa; ADHD: Attention-Deficit/Hyperactivity Disorder; ASD: Autism Spectrum Disorder; BIP: Bipolar Disorder; MD: Major Depression; OCD: Obsessive-Compulsive Disorder; TS: Tourette Syndrome; SCZ: Schizophrenia; SUM: sum of datasets where this gene is significantly associated; CD-MA: Cross-Disorder meta-analysis; np: not present.

Supplementary Table S3. MetaXcan prediction of gene expression effects on the studied disorders for amygdala.

Highlighted in green, nominally significant results. DA: dopaminergic gene set; SERT: serotonergic gene set. * genes present in the DA or SERT core gene set.

ADHD: Attention-Deficit/Hyperactivity Disorder; ASD: Autism Spectrum Disorder; BIP: Bipolar Disorder; MD: Major Depression; SCZ: Schizophrenia; CD-MA: Cross-Disorder meta-analysis; np: not present.

Supplementary Table S6. MetaXcan prediction of gene expression effects on the studied disorders for cerebellar hemisphere

Highlighted in green, nominally significant results. DA: dopaminergic gene set; SERT: serotonergic gene set. * genes present in the DA or SERT core gene set.

ADHD: Attention-Deficit/Hyperactivity Disorder; ASD: Autism Spectrum Disorder; BIP: Bipolar Disorder; MD: Major Depression; SCZ: Schizophrenia; CD-MA: Cross-Disorder meta-analysis; np: not present.

Supplementary Table S7. MetaXcan prediction of gene expression effects on the studied disorders for cerebellum.

Highlighted in green, nominally significant results. DA: dopaminergic gene set; SERT: serotonergic gene set. * genes present in the DA or SERT core gene set.

ADHD: Attention-Deficit/Hyperactivity Disorder; ASD: Autism Spectrum Disorder; BIP: Bipolar Disorder; MD: Major Depression; SCZ: Schizophrenia; CD-MA: Cross-Disorder meta-analysis; np: not present.

Supplementary Table S8. MetaXcan prediction of gene expression effects on the studied disorders for cortex.
