

Supplemental Table 4. Stay at home orders put in place in the 30 most populous counties in the United States.

Geographic Area Name (County Name)	Case Rate ¹ (per 10,000)	Start Date (2020)	Duration until May 10th	Days late ²	Cases at Start ³	Case Rate at Start ⁴
<i>Counties with High Case Rates (High)⁵</i>						
Bronx County, New York	March 13 th	March 22 nd	50	9	3,301	23.0
Nassau County, New York	March 17 th	March 22 nd	50	5	1,234	9.1
Queens County, New York	March 13 th	March 22 nd	50	9	5,962	25.9
Suffolk County, New York	March 19 th	March 22 nd	50	3	662	4.4
Kings County, New York	March 13 th	March 22 nd	50	9	6,327	24.3
New York County, New York	March 12 th	March 22 nd	50	10	4,006	24.5
Philadelphia County, Pennsylvania	March 23 rd	March 30 th	42	7	890	5.6
Middlesex County, Massachusetts	March 21 st	March 24 th	48	3	232	1.5
Wayne County, Michigan	March 22 nd	March 24 th	48	2	639	3.6
Cook County, Illinois	March 21 st	March 21 st	51	0	278	0.5
<i>Counties with Moderate Case Rates (Mid)⁶</i>						
Miami-Dade County, Florida	March 23 rd	April 3 rd	27	11	2,886	10.6
King County, Washington	March 12 th	March 23 rd	49	11	1,040	4.8
Los Angeles County, California	March 26 th	March 19 th	50	-7	190	0.2
Broward County, Florida	March 22 nd	April 3 rd	27	12	1,481	7.8
Palm Beach County, Florida	March 26 th	April 3 rd	27	8	737	5.1
Dallas County, Texas	March 25 th	April 2 nd	29	8	731	2.8
Clark County, Nevada	March 24 th	April 1 st	40	8	869	4.1
Riverside County, California	March 30 th	March 19 th	50	-11	16	0.1
Harris County, Texas	March 28 th	April 2 nd	29	5	847	1.8
Tarrant County, Texas	March 30 th	April 2 nd	29	3	288	1.4

Geographic Area Name (County Name)	Case Rate ¹ (per 10,000)	Start Date (2020)	Duration until May 10th	Days late ²	Cases at Start ³	Case Rate at Start ⁴
<i>Counties with Low Case Rates (Low)⁷</i>						
San Diego County, California	March 27 th	March 19 th	50	-8	60	0.2
8Maricopa County, Arizona	March 28 th	March 31 st	41	3	690	1.6
San Bernardino County, California	April 2 nd	March 19 th	50	-14	3	0.0
Alameda County, California	March 26 th	March 19 th	50	-7	30	0.2
Santa Clara County, California	March 19 th	March 19 th	50	0	175	0.9
Orange County, Florida	March 27 th	April 3 rd	27	7	541	4.1
Orange County, California	March 27 th	March 19 th	50	-8	29	0.1
Hillsborough County, Florida	March 26 th	April 3 rd	27	8	404	2.9
Bexar County, Texas	April 1 st	April 2 nd	29	1	207	1.1
Sacramento County, California	March 26 th	March 19 th	50	-7	40	0.3

¹The date in which the cumulative number of cases per 10,000 of the respective county population was ≥ 1.0 .

²The number of days after the intervention was implemented after the case rate was ≥ 1.0 . Negative values indicate and intervention that was implemented before the case rate was ≥ 1.0 .

³The cumulative number of cases when the intervention was implemented.

⁴The cumulative number of cases per 10,000 of the respective county population when the intervention was implemented.

⁵High – a case rate of > 100 per 10,000.

⁶Mid – a case rate of 15 to 100 per 10,000.

⁷Low – a case rate of < 15 per 10,000.
