

**Supplementary Table 1. Principal Component Analysis: Rotated Component Matrix**

	Component			
	1	2	3	4
I've been feeling down	<b>.713<sup>a</sup></b>	-.086	-.020	.022
I've had trouble relaxing	<b>.666<sup>a</sup></b>	.090	.172	.029
I've been feeling lonely	<b>.618<sup>a</sup></b>	.051	.162	.088
I've been feeling worried	<b>.531<sup>a</sup></b>	.043	-.226	-.147
I've become easily annoyed or irritable	<b>.482<sup>a</sup></b>	.113	-.010	-.072
I've had time to exercise	-.025	<b>.697<sup>b</sup></b>	.069	.176
I've had time to focus on my health	.097	<b>.670<sup>b</sup></b>	-.046	-.051
I've had time to enjoy personal interests or hobbies	.072	<b>.579<sup>b</sup></b>	.089	-.221
I've been having poor appetite	-.039	.031	<b>.733<sup>c</sup></b>	-.080
I've had trouble falling or staying asleep	.339	.017	<b>.483<sup>c</sup></b>	.122
I feel connected with my local community	.098	.362	-.404	-.151
I've been overeating	.071	.250	.327	-.116
I've had the opportunity to chat with my family and friends	.046	-.255	-.051	<b>.609<sup>d</sup></b>
I've enjoyed the spring weather	-.055	.020	.327	<b>.501<sup>d</sup></b>
I've been feeling tired or having little energy	.326	.081	.137	-.489
I feel able to cope with the situation	.310	.208	-.038	<b>.442<sup>d</sup></b>

Rotation Method: Varimax with Kaiser Normalization.

<sup>a</sup>. Component 1: Maternal mental health

<sup>b</sup>. Component 2: Time availability for own health, hobbies and interests

<sup>c</sup>. Component 3: Appetite and sleep changes

<sup>d</sup>. Component 4: Coping
